## WORK EXPERIENCE

**PROJECT COORDINATOR** | Dayforce Inc. | Remote | Co-op Student

January 2025 – August 2025

- ◆ **Leading a high-impact ServiceNow rollout**, collaborating with an external vendor and internal stakeholders.
  - ◆ Facilitating **requirements-gathering** sessions to map current processes and define a clear implementation roadmap.
  - ◆ Creating and managing **Jira** epics and user stories to support **agile delivery** across teams.
  - ◆ Identifying risks, escalating to leadership as needed to mitigate delays and maintain delivery momentum.
- ◆ **Coordinating a company-wide migration from on-premise to cloud (AWS and Azure)**, facilitating the move of **245 VMs**.
  - ◆ Leading **cross-functional** meetings with development teams to unblock issues and gather status updates.
  - ◆ Designed and distributed a weekly project newsletter to **align technical/business teams and leadership**, a format adopted by 4 additional programs following positive leadership feedback.

**TECHNICAL PROJECT COORDINATOR** | SAP Canada Inc. | Vancouver, BC | Co-op Student

September 2022 – April 2023

- ◆ Automated the process of notifying 100+ teams on their security issues, **resulting in a 100% reduction in overdue items**.
  - ◆ Developed a **Python** script integrated with **Jenkins in a CI/CD pipeline** in collaboration with the security intern.
  - ◆ Presented the project plan to the VP and other stakeholders, securing approval due to its significant impact.
- ◆ Managed **Jira for 100+ teams worldwide**, ensuring alignment with SAP standards.
  - ◆ Reviewed workflow change requests from teams for feasibility and implemented if actually needed.
  - ◆ Made an automated SAP Analytics Cloud dashboard to identify workflow discrepancies, ensuring platform consistency.
- ◆ **Managed a team of 8 interns** as PM for the internal LMS platform, prioritizing product features and leading sprint planning.
- ◆ **Led the weekly meetings with the VP**, QA leads, and managers to address priority issues and quality concerns.

## EDUCATION

**UNIVERSITY OF BRITISH COLUMBIA (UBC)** | Dean's List | cGPA: 84.3%

September 2020 - May 2026 (expected)

Computer Science, Bachelor of Science

- ◆ Recipient of the KMILOT Award 🏆, **a full-ride** given to 25 out of 1000+ global applicants for exceptional leadership skills.

## VOLUNTEERING EXPERIENCE

**CO-PRESIDENT** | UBC Women in Computer Science

May 2025 – Present

- ◆ Driving strategic planning for a **team of 27**, aligning six subteams and managing relationships with **10+ sponsors**.
- ◆ Overseeing **end-to-end execution of 20+ annual events**, including a hackathon, regional conference and collaborations.

## PROJECTS

**CAMPUSBUDDY – RAG CHATBOT** | Co-Creator & Full-Stack Developer

May 2025 – Present

- ◆ Initiated the project after identifying a recurring need for clarity around UBC academic processes during Committee for Diversity, Outreach and Equity (CODE) meetings, transforming student pain points into a technical solution.
- ◆ Built an **Retrieval-Augmented Generation (RAG)** chatbot using **FastAPI, LangChain, and OpenAI embeddings**.
- ◆ Designed a scalable React frontend with a **context-aware chat interface**, reusable components, and a clean design system supporting cited sources and prompt suggestions.

**PERSONAL WEBSITE** 🌐 | Full-Stack Developer & Designer

January 2025 – Present

- ◆ Built a fully responsive portfolio website showcasing my projects, values, and contact details in a creative way.
- ◆ Created an interactive core values map with draggable and expandable elements linking my work to my values.
- ◆ Implemented interactive project filtering, animations, and an integrated contact form using **JavaScript, HTML, and CSS**.
